

GIKANIX ROSHAN G R

IT STUDENT

91+ 9342774755

gikanix6@gmail.com

7-59 Mulagumoodu, Kanyakumari.

EDUCATION

HSC

GoodShepherd Matriculation Higher Secondary School

72.4% 2022 - 2023

BACHELOR OF INFORMATION TECHNOLOGY

St . Xavier's Catholic College of Engineering

CGPA : 7.62 2023 - Till Date

TECHINICAL SKILLS

- Web Development : HTML , CSS , JS
- C, JAVA, Python
- Databases : MySQL
- Tools and Others : Git and Github, WordPress (Building pages, customizing themes, plugin), AWS(S3,CloudFront)

ADDITIONAL INFORMATIONS

- STRENGTHS : Time Management, Teamwork, Communication .
- LANGUAGES KNOWN : Tamil, English, Malayalam(Intermediate).
- HOBBIES : Photography & Video Editing, Gaming & Traveling.

OBJECTIVE

I am a passionate enthusiastic IT student with hands-on experience in web development (HTML, CSS, JavaScript) and programming (C, Java), I aim to start my career as a front-end or full-stack developer. My goal is to apply my skills in databases, WordPress customization, and collaborative tools like GitHub to build user-friendly, responsive, and impactful digital solutions while continuously learning and growing with the organization.

INTERNSHIP

June - 2025

GENLAB, Nagercoil

Software development - INTERN

- Provisioned and managed AWS infrastructure using Terraform, following Infrastructure as Code (IaC) best practices.
- Automated deployment of web applications using GitHub Actions with Amazon S3 and CloudFront for hosting and content distribution.

June - 2025

KELTRON, Trivandrum

Internship in Internet of Things (IoT)

- Gained hands-on experience in IoT technologies, sensor integration, and embedded programming using ESP32 and Arduino platforms.
- Independently worked on a mini-project "Smart Soil Analyzer & Crop Advisor", applying IoT for smart agriculture solutions.

CERTIFICATES

Data Analytics (Maiyyam)

Full - Stack (Mern)App/Web Development (Maiyyam)

PROJECTS

GTA 5 Hand Gesture Control (Python, OpenCV)

- Created a real-time gesture control system to drive GTA 5 using webcam-based hand tracking with MediaPipe, mapping gestures to keyboard controls with low-latency feedback.

Smart Soil Analyzer and Crop Advisor (IOT)

- Built an ESP32-based soil monitoring system using DHT11, moisture, and pH sensors to analyze soil health and provide crop recommendations for improved agricultural decision-making

Movie Ticket Booking Management System(Mini project)

- Developed a Java GUI application for movie listings, seat selection, and ticket booking with Admin & Customer modules, secure login, and real-time booking management.
